

Quality Of Work

Score: 3 (full marks)

Comments:

Code is clean, readme file is clear on what the project is and is about.

My one suggestion would be to possibly alter the name of the project because “task management web application” makes it seem like an actual task manager (like Windows task manager) for computers rather than personal assignments.

Intellectual Merit

Score: 3 (full marks)

Comments: The project meets all the requirements for full marks.

Video

Score: 3 (full marks)

Comments: The video meets all requirements for full marks

Total Score: 9/9
